

Fibre Broadband Coming Soon!

Fibre broadband will be rolled out in Armthorpe over the coming months as part of the Superfast South Yorkshire programme. This will give businesses and residents of Armthorpe access to a next generation internet connection through their existing phone lines.

Superfast South Yorkshire is working closely with Doncaster Borough Council, particularly with the don't wait in line...get online! campaign. Easier access to council services is just one of the many benefits of superfast broadband.

Superfast South Yorkshire New Fibre services are set to transform the way people use the internet, from the simple sharing of pictures and video to enjoying the growing boom in entertainment services available online. This will improve the lives of residents and improve opportunities for businesses across South Yorkshire.

The new fibre-based network installed by BT Openreach will be open to all Internet Service Providers. Households and businesses in South Yorkshire will benefit from a highly competitive market, which is expected to bring greater choice and affordability from providers.

For more details visit www.superfastsouthyorkshire.co.uk or follow them on social media.
